XNK MY PLY CO., LTD

Sustainable Plywood. Responsibly Sourced. Globally Delivered

WHO WE ARE

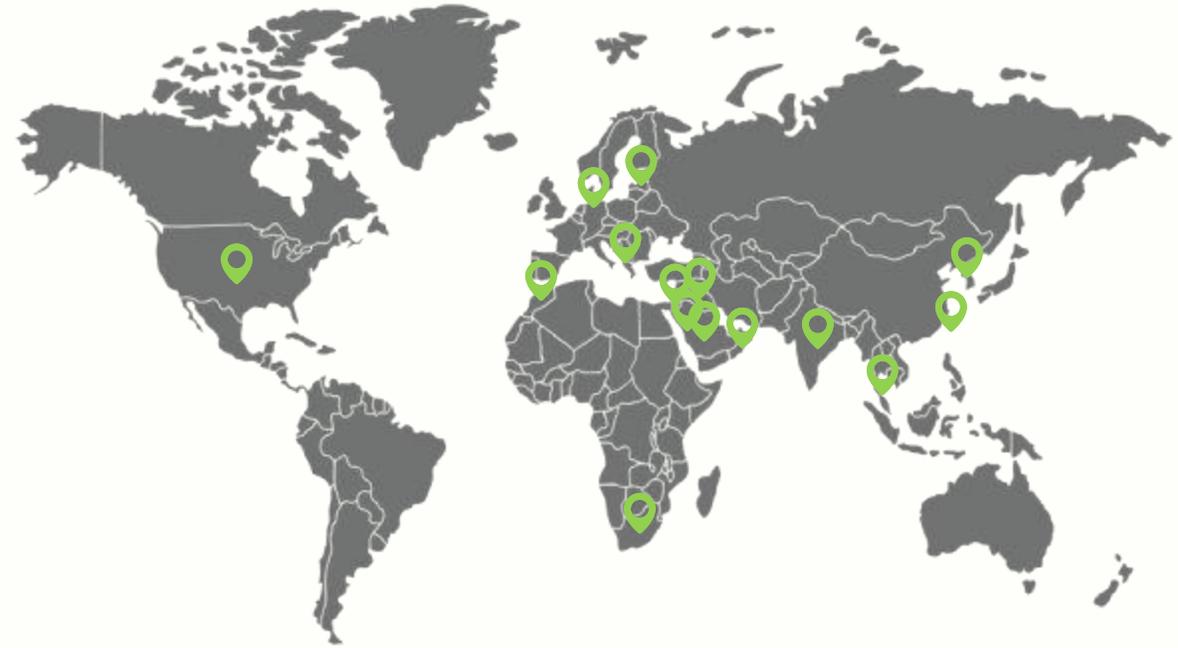

MYPLY is a Vietnam-based plywood supplier specializing in responsibly sourced, export-ready plywood products.

We work closely with carefully selected wood sources to deliver consistent quality, stable supply, and compliance with international market requirements, particularly for Europe, North America, and Middle East countries.

MYPLY acts as a reliable partner, ensuring that every shipment meets agreed specifications, performance standards, and regulatory expectations.

OUR PHILOSOPHY

At MY PLY, plywood is more than a product — it is part of a longer journey.

> From legally sourced timber and controlled manufacturing processes to final delivery at destination ports, we focus on transparency, responsibility, and long-term cooperation..

- > Our approach is built on:
- Responsible sourcing
 - Technical consistency
 - Long-term partnerships
 - Market-driven solutions.

Sustainable Plywood. Responsibly Sourced. Globally Delivered

Our machines for production

In My Ply, we invest in a full system of machinery and equipment to produce high quality products. The main types of machinery that we own include:

- Core Veneer Jointing Sewing Splicing Machine
- Glue Spreading Machine
- Lay-up Line
- Cold Press Machine
- Hot Press Machine
- Sanding Machine
- Polishing (for face veneer) Machine

Our production process

MY PLY CO., LTD

Sustainable Plywood. Responsibly Sourced. Globally Delivered

WHAT WE DO

MY PLY specializes in supply of plywood, including:

- Film Faced Plywood for construction and formwork
- Commercial & Furniture Plywood
- Birch-faced and decorative plywood
- Customized plywood solutions upon request

We support customers not only with products, but also with:

- Technical consultation
- Specification alignment
- Market compliance guidance
- Stable supply planning

FILM-FACED PLYWOOD

A durable and cost-effective solution for concrete formwork applications.

Available options:

- Standard / Premium / Pro / Signature grades
- Melamine or Phenolic film
- WBP / Melamine glue systems
- Reusable and dimensionally stable

Applications:

- Concrete shuttering
- Infrastructure projects
- Industrial construction

			
Standard form	Signature form	Premium form	Pro form
A cost-effective Film Faced Plywood, offering standard surface performance and dimensional stability that are suitable for construction	MY PLY's main-stream product line for concrete shuttering, which offers good surface performance and mechanical strength	MY PLY's formwork plywood with enhance stability and serviceability, which offers a consistency(alignment) of casting, and is suitable for exposed concrete area	MY PLY's highest quality of film-faced plywood, which offers both maximum reuse and ensures maximum concrete surface quality
Standard size: 1220x2440mm	1220x2440mm; 1250x2500mm (or cut half upon request)		
Standard thickness: 12mm, 15mm, 17mm, 18mm	Any thickness from 6mm to 30mm		
<ul style="list-style-type: none"> • Melamine glue • Water resistance • E2 emission standard 	<ul style="list-style-type: none"> • A-bond and B-bond, WBP Melamine and Phenolic glue • E0, E1, E2 emission standard 		
<ul style="list-style-type: none"> • EN 13968 • TCVN 11025 • ISO 9001:2015 			

COMMERCIAL & FURNITURE PLYWOOD

Designed for furniture manufacturing and interior applications, offering good surface quality and mechanical strength.

Key features:

- Stable core construction
- Smooth sanding surface
- Suitable for overlay or natural veneer finishing

WOOD VENEER PLYWOOD

(1) Natural wood veneer (face veneer)

- High durability, and good water resistance
- Fancy natural wood grain is visible
- Less deformation, long-lasting stability

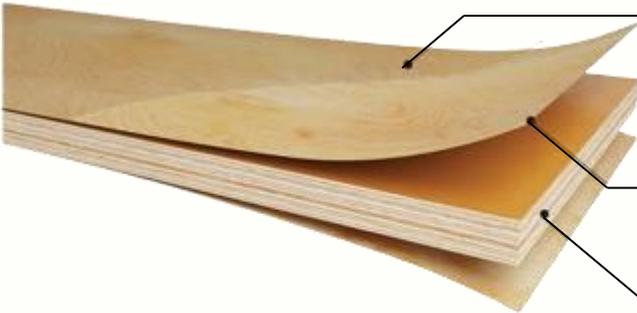

(2) Base plywood (core veneer)

- Vietnam soft/hard wood from legally source
- Consistent and stable in dimension
- Strong and nail-holding

	Birch plywood	Wood veneer plywood
Size	1220*2440mm	1220*2440mm (1250*2500mm available for Eucalyptus/Canarium face)
Thickness	5mm to 21mm	
Core veneer options	Hardwood Acacia, Eucalyptus & Softwood Styra, Ormosia	
Glue options	MR (moisture resistance) glue; WBP (water boiling proof) glue	
Formaldehyde emission standard	E2, E1, E0 standard (CARB P2)	

MY PLY'S Commercial Plywood Portfolio

VIETNAM WHITE BIRCH PLYWOOD

(1) UV coat (optional)

- Resistant to water and common chemicals
- Limit yellowing the surface and scratching resistant

(2) Birch raw veneer

- Face veneer layer is made from 100% imported birch

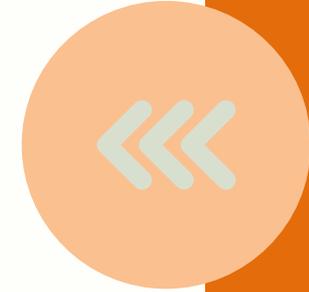

(3) Base plywood (core veneer)

- Vietnam soft/hard wood from legally source
- Consistent and stable in dimension
- Strong and nail-holding

Our other plywood product lines

MY PLY always aims for sustainable development and product diversification. Besides the two traditional product lines of film-faced and furniture plywood, we have successfully researched and developed packing plywood, LVL and LVB to meet the diverse needs of customers.

Packing plywood

Packing plywood is manufactured in Vietnam with 100% eucalyptus or acacia. We have taken advantage of cheap labor cost and raw materials to optimize costs.

- Grade available: A, B, C
- Face veneer options: Bintangor, Styra, Pine,...

LVL

LVL (laminated veneer lumber) & LVB (laminated veneer board) is a special product in the woodworking industry. They are used in construction beamings, furniture (sofa frames, bed slats, bed frames,...) and packing purposes.

- Core veneer: Styra, Acacia, Eucalyptus;
- Face veneer options: Pine, Styra, Okoume...
- Size: Cut to size upon request

LVB

MYPLY cooperates with customers operating under internationally recognized quality systems, including:

- ISO 9001:2015
- EN standards (upon request)
- CARB P2 compliance
- Vietnam legal timber sourcing

We focus on process control, traceability, and pre-shipment inspection to ensure reliability across markets.

QUALITY & COMPLIANCE

All plywood supplied by MYPLY is produced using legally sourced timber from Vietnam, in accordance with local regulations and international expectations. Sustainability is not a marketing claim — it is a working principle embedded in our supply chain selection.

PACKING AND LOADING

WHY MY PLY

- Carefully selected legal and quality wood sources
- Stable and consistent quality
- Clear communication and transparency
- Market-oriented mindset
- Long-term cooperation focus

We don't aim to be the biggest —we aim to be dependable.
